

Sidmouth **SCIENCE** Festival is 5 years old!

2016 Highlights:

We aim to raise awareness of the STEM subjects of Science, Technology, Engineering and Maths, and how it affects our everyday lives, and provide events for all age groups and all parts of the community.

We have had many very appreciative comments from visitors:..

Fantastic fun for the whole family! All volunteers were amazing - very patient and informative. Loved it!

Brilliant at every venue. Right level of interaction, learning and technical.

Incredible variety of topics and presentation: scientific matters in very accessible ways.

I enjoyed the Festival because it has shown me things that I would probably not have seen otherwise.

I think the science shows in Sidmouth are really good!

I just wanted to extend my thanks to all those involved in Sidmouth Science Festival, in particular the event at the Norman Lockyer Observatory on Sunday. What a great day out for all the family with so much to do for all ages. My son and I enjoyed designing, building and racing our own jet car, while my daughter listened to the storyteller.

Thank you to Sidmouth Science Festival for organising your visit to our school.

Well done to all who contribute to the Festival. The scope of the Festival is outstandingly good. Well done !!

to the storyteller:
